

The Need for Knowledge: How does Misinformation about Cancer affect a Country's Health System

August 30th, 2012

World Cancer Congress, Montreal

Felicia Marie Knaul, PhD

*Harvard Global Equity Initiative, Global Task Force on Expanded Access to
Cancer Care and Control in LMICs*

Tómatelo a Pecho and Mexican Health Foundation

UICC Board Member 2012-14

June, 2007

Program to reduce barriers: Breast cancer, Mexico

Juanita:

Advanced metastatic breast cancer is the result of a series of missed opportunities

Mexican Champion: Abish Romeo treatment through Seguro Popular

Stigma:

Cancer – especially in women and children - adds a layer of discrimination onto ethnicity, poverty, and gender.

Be an optimist optimalist

Expanding access to cancer care and control in LMICs: Should, Could, and Can be done
