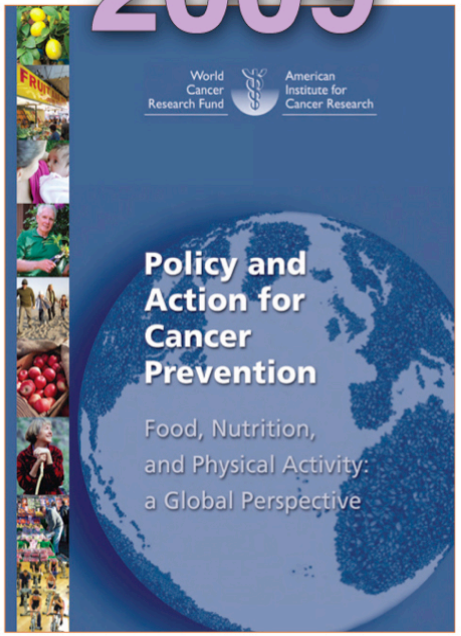
Food, Nutrition, Physical Activity, and the Prevention of Cancer: a Global Perspective

2009



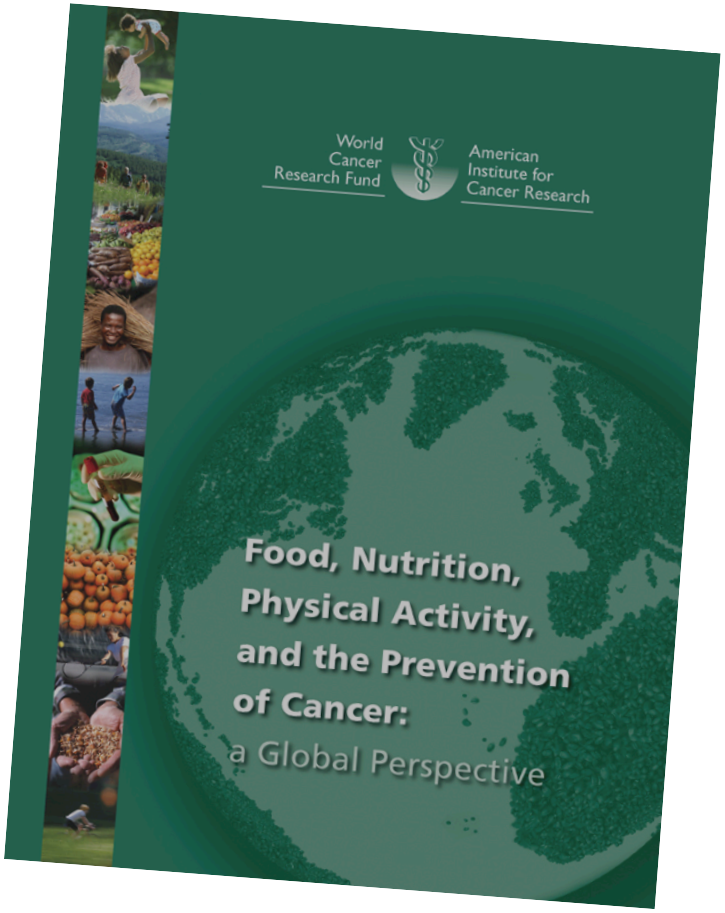
Policy and Action for Cancer Prevention

Continuous Update Project CUP

World Cancer Research Fund International

The Diet and Cancer Report

- New methodology (SLRs)
- Review of evidence separate from judgement
- Panel of international experts
- 10 recommendations



Continuous Update Project CUP

World Cancer Research Fund International

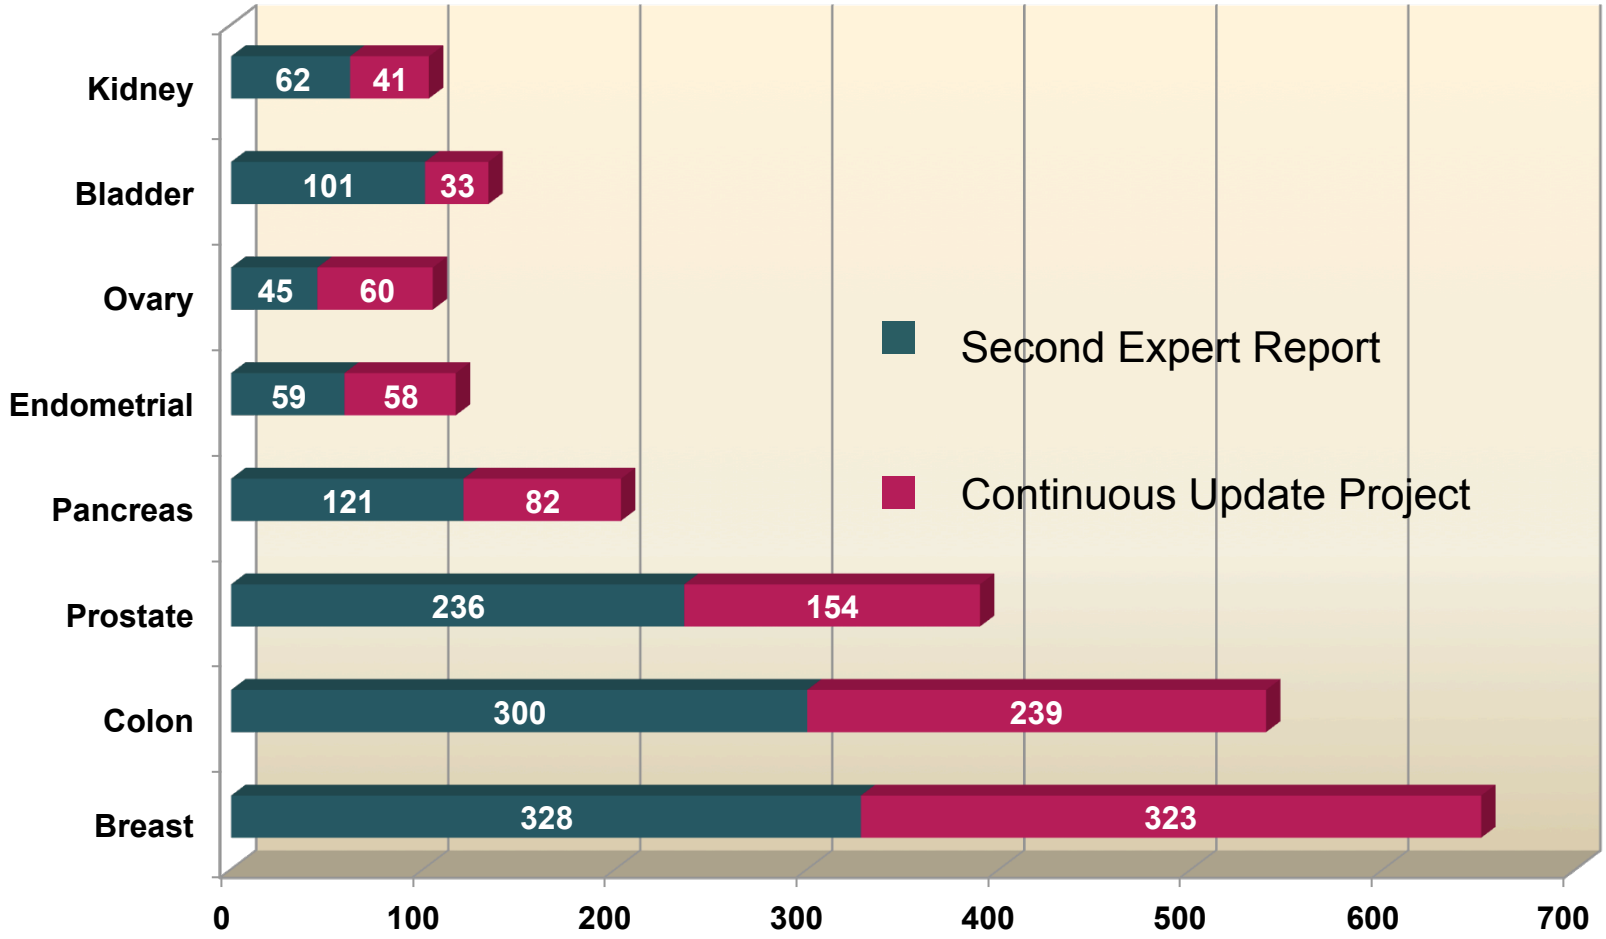
Introducing the Continuous Update Project

- Keep evidence, conclusions and recommendations updated into the future
- Team at Imperial College London
- Same principles as Diet & Cancer Report:
  - Systematically review evidence
  - Panel of experts
  - Draw conclusions
  - Make recommendations

Continuous Update Project CUP

World Cancer Research Fund International

Number of articles from cohort studies in the CUP database for selected cancers



Continuous Update Project CUP

World Cancer Research Fund International

Importance of the CUP

- Largest database of its kind on food, nutrition and physical activity.
- Ongoing review of latest evidence relating to WCRF/AICR's Recommendations for Cancer Prevention
- Enables comprehensive recommendations for cancer prevention based on the most up-to-date scientific evidence
