

## Jesper Bonde

Senior Researcher, Copenhagen University Hospital, Denmark

### Biography

Jesper Bonde, Ph.D., Dipl.Med.Sci. is a Senior Researcher, head of laboratory and research lead at the Molecular Pathology Laboratory (Dept of Pathology) at AHH-Hvidovre Hospital, Copenhagen University Hospital.

The molecular pathology laboratory at AHH-Hvidovre Hospital, Copenhagen University Hospital, conducts cervical cancer screening for 33% of Denmark, Greenland and the Faroe Islands. The laboratory is spearheading the implementation of primary HPV screening and HPV self-sampling in Denmark.

Dr. Bonde is the principal investigator of studies on screening technology, HPV self-sampling, epigenetic diagnostic methods and biomarkers, member of the Danish Cervical Screening Steering Committee, appointed HPV expert to the Danish National Board of Health, and The European Commission Initiative on Cervical Cancer (EC-CvC)
