

Suzette Delaloge

Associate Professor of Medical Oncology, Department of Cancer Medicine, Gustave Roussy, France

Biography

Dr. Delaloge, MD, MSc, is a medical oncologist and researcher. She is a breast cancer and cancer prevention specialist, and an Associate Professor of Medical Oncology in the Department of Cancer Medicine of Gustave Roussy. She trained in France and Canada. She has been Head of the Breast Cancer Group at Gustave Roussy, Paris, France from 2004 to 2021.

In 2021, she has been appointed director of the Interception medico-scientific programme at Gustave Roussy. This visionary initiative builds nation-wide clinical pathways, and national and European-level basic, translational, digital and clinical research to foster personalized early detection and prevention among individuals at high risk of cancer.

Dr. Delaloge's major areas of expertise and development are precision risk-based cancer prevention, real world data, breast cancer precision oncology, and the organization of care in oncology.

She has been chair of the French National Breast Cancer Research Intergroup UCBG from 2015 to 2019. She currently chairs the ESMO Breast cancer conference 2022 - 2024. She is or has been involved in numerous national and European scientific committees and boards. She is a member of the American Society of Clinical Oncology (ASCO) educational committee in the cancer prevention and early detection field. She has been chair of the National Unicancer ESME-Metastatic Breast cancer real world data project from 2016 to 2023. She is chair elect of the ESMO real world data and digital medicine working group.

She is the chair and coordinator of the large H2020 EU-funded MyPeBS project and clinical trial, which aims at demonstrating the value of risk-based breast cancer screening among more than 53,000 women randomized in 6 European countries, with the participation of 27 international partners.

Dr. Delaloge is the author of more than 340 international peer-reviewed publications and more than 800 presentations at international conferences (Scopus H-Index: 69). She obtained several awards. In 2019, she was appointed as "Chevalier de la légion d'Honneur" by the French government.

Dr. Delaloge is breast specialty editor for European Journal of Cancer, genetics editor for The Breast, associate editor of ESMO Real World Data and Digital Health Journal; as well as reviewer of many major journals. She has been involved for years in many recommendations and guidelines activities in oncology. Dr. Delaloge is committed to numerous continuous teaching activities dedicated to doctors in training and medical students.
