Using multiple data sources for cancer program planning

Carolyn Gotay
School of Population & Public Health, University of British Columbia, Vancouver, Canada

ROP126
Track 4
Systems in cancer control
Using multiple data sources for cancer program planning

Carolyn Gotay

- Define
  - Local Health Area
- Group
  - SES Quintiles
- Analyze
  - Rates & Ratios
- Visualize
  - Mapping
- Explain
  - Action

Sources:
- SES Data (BC Stats)
- Cancer Data (BCCA)
- GIS (BC Data Distribution)
- Risk Factors (Other Studies)
Using multiple data sources for cancer program planning
