Objective:

- To equip nurses with knowledge/skills to provide the best cancer care in the world
- To motivate nurses into a life long learning by providing up to date, clinically relevant, and interactive curriculum
- To lead innovation in continuing education in health care, via a blended model of teaching for different generations of nurses.
Key Areas of Developments

Elearning
• Online Tools
• Mentoring Tools
• Simulation
• Reporting
• IT Infrastructure
• Information and Communication Tools

Workshop in combination with eLearning

Mobile Learning
Online Learning - Effective Content delivery for 5000 Learners
Mobile Learning – leverage technology
